

1. Big Picture

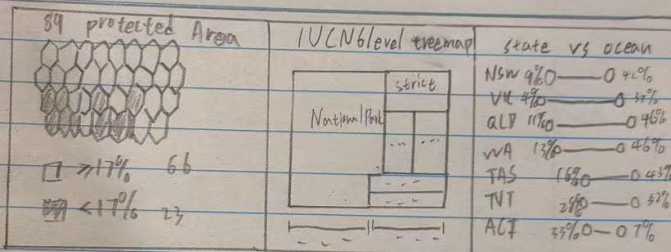

"Australia has protected an area larger than Germany France and Spain combined."

Australia

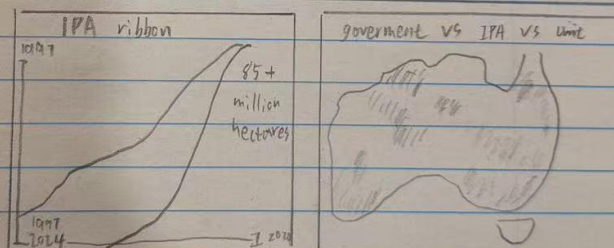

2. Paradox

"22% of country is protected. But 89 bioregions, 23 fall below 17% target."

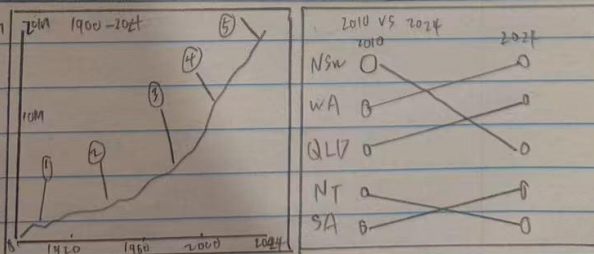

3. Quiet Revolution

"In 1998, Australia did something no other country had done."

4. A Century of Protection

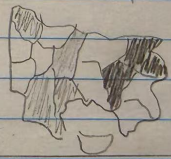

"From a single park in 1879 to 14,000 today. The story of Australia protected areas is the story of changing values"

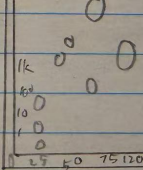

5. Victoria's Paradox

"Victoria is home of
a quarter of Australians,
but only 4% protected
area ----
